Pro Tip

Need to order catering for Work-Through-Lunch meetings?

To help make those a success, we recommend meals that can be individually packaged with the complete meal, utensils, condiments and napkin all in the same box. It should be in a plastic container (such as a bento box) that is sealed so it survives any accidental drops by guests and also labeled with its contents so guests can decide on their selection quickly. We also recommend offering limited choices to expedite their selection.

Consider ordering these popular box lunches:

- **Hot Meal Box Lunches** - *great alternative to a typical box lunch*
- **Signature Sandwiches, Wrap Sandwiches and Entrée Salads** - *are quick and easy*
- **Customized box lunches**- Wow your guests with custom items you select! Italian, Mexican, Vegetarian items... just to name a few!
